## **10 . Program Development in collaboration with the Kuwaiti Job Market**

### **First:**

As a member of the Pharmacological and Medical Sciences Department in College of Health Sciences, I was interested in creating and developing the paramedic program (Emergency Medicine EM) in Kuwait on an academic basis. It was started in 2003. This was done in collaboration with the Center for Development of Curriculum (CDC) in PAAET using Worldwide Instructional Design System (WIDS). The paramedics curriculum was built according to international occupational and national standard for both Diploma and Bachelor degrees.

I worked hard to build a new department titled Department of Applied Medical Sciences. The Paramedics program (Diploma) was established in the academic year 2008-2009.

After assigning as a founder and director of the Technical Office in the College of Health Sciences, I worked on establishing and developing other programs in our department as well as encouraging most of the departments in the college to develop or initiate new academic programs (2003- 2005) such as:

### **In our Applied Medical Sciences**

#### **- Bachelor Science (BSc) Programs (2+2)**

Paramedic program  
Forensic Medicine  
Respiratory Therapist

#### **- Diploma Programs (2 years)**

Emergency technician (ET) (Finished)  
Intensive Care ( Prosponed)  
Anesthesia (Prosponed at that time then started again according to a request from ministry of Health and we started the program in September 2021-2022)

Respiratory Therapist (Prosponded)  
Forensic Medicine (Ceased)  
Prosthetics and orthotics (Ceased)

**Second:** A collaboration committee between the General Anesthesia Department- Ministry of Health was established, The program was approved by the Board Members of PAAET. We started the anesthesia program since First Semester in the academic year 2021-2022

**Third:**

A collaboration committee between the General Respiratory Department- Ministry of Health was established, after a long sessions, the program was approved. Respiratory Therapist Technician program will be started in September 2023, Department of Applied Medical Sciences, College of Health Sciences , PAAET.

## **11. Development of the colleges of PAAET via collaboration with other analog scientific institutes**

- 1- During my 4 years as the Assistant Deputy Director General for Applied Education and Research (2004-2008), We worked hard to set a link between PAAET and international colleges to improve the work in the colleges and according to the twinning agreement that was launched between PAAET and the British Council, an affiliation was established between some colleges of PAAET and other analog colleges in UK in 2008. Two colleges were chosen: The college of Basic Education and College of Nursing for such collaboration in 2008. I arranged for a team from both colleges to visit their counterpart in the University of York in UK in 2008.
- 2- **Member in the Council of Private universities from May 2021 for 3 years**

## **12. Social Contribution**

- 1) As an Assistant Director of Society Services and Continuous Education Department – PAAET January 2003– September 2004, I

was able to promote the training courses that was given to members in the Kuwait society in the evening time

- 2) I contributed, as a sole exhibitor in the stand of paramedic booth, with students from the Applied Medical Department, College of Health Sciences in the Independence Day Exhibition, in the period from 23 February till 10 March 2012 that was held in the International Exhibition Center, in Hall 8 , Mishref, Kuwait.

- 3) I organized 2 training sessions , that was held in the hall of the college of Health Sciences, in collaboration with the Paramedic Department , Ministry of Health, in two weeks time as follow:

CPR Training course. CPR License. Paramedic Department, Ministry of Health, Kuwait 29-30 April and 6-7 May 2012

First Aid Training Course, Certificate in First Aid. Paramedic Department, Ministry of Health, Kuwait 1-3 May and 8-10 May 2012

Each course has 15 contributors from the academic, trainees and administrative staff from the college.

- 4) I also contributed, as a sole exhibitor in the stand of paramedic booth, with students from the Applied Medical Department, College of Health Sciences in the Independence Day Exhibition, in the period from 21- 26 February 2013 that was held in the International Exhibition Center, in Hall 6, Mishref, Kuwait.
- 5) “Save Life” was the campaign that was held in a big mall in Kuwait, the Avenues, for the period 6-7 June 2013. After submitting the idea of the theme, I planned and organized the whole event. It was done under the umbrella of PAAET (الصندوق الأهلي) and sponsored by Boubyan Bank. As a head of Applied medical sciences department, I promote our students (Emergency Medical Technicians EMT) to perform and display the basic life support procedures and teach the audience plus performing blood pressure and sugar test

6) As a coordinator and member of the Committee of the Establishment of Paramedic Units in the Colleges and Institutes of PAAET during 1<sup>st</sup> April 2012- 31<sup>st</sup> July 2012, and as a collaboration with the ministry of Health, Kuwait, We manage to supply 4 paramedics units with the medical instruments, equipments, paramedic personnel and complete medical and office furniture in the following Campuses:

- College of health Sciences – Girls - Shuwaikh
- College of Basic Education Girls - Aardhiya
- College of Business Studies- Boys - Aardhiya
- College of Technical Studies – Boys -Shuwaikh
- Institute of Secretarial and Office management- Girls- Hawally

An opening ceremony was done on Wednesday 13-11-2013 in the presence of Acting Minister of Health and General Manager of PAAET.(An appreciation certificate was given)

7) **Member in the National Society for Child Protection Kuwait** from 2006 till now

8) As a member in the Committee “Cooperation and understanding Letter between Kuwait Oil Company, KOC, and Public Authority of Applied Education and Training PAAET November2022- March 2023, we managed to set an agreement between KOC and PAAET to adopt and enroll our Paramedic students in the department of Applied Medical Sciences for training in KOC while studying in the college
