

ABDULRAHMAN ALSHAREEDAH

Cloud Administrator / Cloud Engineer

Kuwait | +965 9749 0002 | Hamany678@icloud.com | linkedin.com/in/abdulrahman-alshareedah-50a0aa366

PROFESSIONAL SUMMARY

Computer Science graduate and AWS Academy Cloud Operations certified, completed the Zain Kuwait GROW Program in the IT Cloud department. Hands-on with GCP Compute Engine, load balancing, and multi-zone disaster recovery for live telecom services. Seeking a Cloud Administrator role.

EXPERIENCE

Cloud Infrastructure Trainee

Zain Kuwait — GROW Program, IT Cloud Department | Apr 5 – Jun 30, 2026

- Provisioned and managed Virtual Machine instances on Google Cloud Platform (GCP) Compute Engine supporting live telecom digital services.
- Configured load balancer VMs and a disaster recovery setup spanning multiple availability zones.
- Set up node instances with internal and external IP networking and maintained VM lifecycle and monitoring.
- Collaborated with the Zain Cloud team on production infrastructure operations and instance scheduling.

PROJECTS

Multi-VLAN Office Network — Cisco Packet Tracer

Academic Project | 2025

- Designed and deployed a segmented LAN for three departments (Admin, HR, Reception) using VLANs 10/20/30 with a /26 IPv4 addressing scheme (192.168.1.0/26, .64/26, .128/26).
- Configured inter-VLAN routing via router subinterfaces, 802.1Q trunk links between switch and router, and per-VLAN DHCP pools; verified end-to-end connectivity across all segments.

Bloom — iOS Goal-Tracking Application

Personal Project, Swift | 2025 – Present

- Designed and built an iOS app end-to-end in Swift, covering UI, business logic, and local data persistence.

EDUCATION

B.Sc. in Computer Science

Gulf University for Science and Technology (GUST), Kuwait | Graduated Jan 2026

CERTIFICATIONS

- AWS Academy Graduate — Cloud Operations, Amazon Web Services
- Zain GROW Program — Certificate of Completion, Jun 2026
- Developing Apps through AI — CODED in collaboration with Zain, May 2026
- Injaz Kuwait — Innovation Camp, Steer Your Career, Head Start, and Personal Finance programs (Apr 2026)

TECHNICAL SKILLS

Cloud: Google Cloud Platform (GCP), AWS, Compute Engine, VM Provisioning, Load Balancing, Disaster Recovery

Networking: Subnetting, VLAN, TCP/IP, Internal/External IP Configuration, Firewalls

Programming: Swift, Python, Java

Languages: Arabic (Native), English (Professional)
